

Comprehensive Solution with Eppendorf

Cell Culture Confidence

Eppendorf comprehensively caters to your every step in cell culture workflow from **cell seeding, cultivation to harvesting.**

Our cell handling solutions are developed to facilitate lab work while offering safety and convenience in handling.

Centrifuge 5702 R Centrifuge 5804 R / 5810 R

Benchtop centrifugation with gentle acceleration & braking for optimised isolation of mononuclear cells. Temp: -9 °C to 40 °C

5 / 15 / 50 mL Sample Tubes

Culture Plates

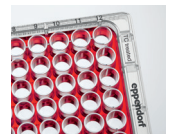

Protects against wide range of contaminants including mycoplasma

Culture Dishes

SplashProtect ring to avoid unintended spillage

Culture Flasks

Outer moat & inter-well space to be filled to minimise evaporation

Easypet 3 Pipet Controller & Serological Pipets

Touch-sensitive aspiration speed control, with battery indicator

High density filter to protect from aerosols

Research plus Pipette

Fully autoclavable, ultra-light & spring-loaded tip cone for reproducible tip fit and pipetting results

CellExpert C170i CO2 Incubator

Stay flexible and upgrade your device later. Fast temperature and CO2 recovery. 25% more usable space, easy cleaning, vibration and turbulence protection with fan-less design

Harvesting

Seeding

Cultivation

Imaging Dishes Imaging Plates

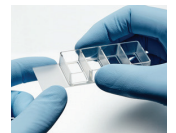

Central cavity for sample imaging area

Glass bottom with excellent planarity

Imaging Slides & Coverglass

Tool-free chamber removal

epMotion 96 Semi Automated Electronic Pipette

Precise, parallel pipetting onto 96-wells plate, ranging from 0.5 to 300 ul volume
